

MMA series

Mast mount adaptor

Converts deck antennas to mast mount antennas

The MMA or mast mount adaptor is designed to convert a deck mount antenna into a mast mount antenna.

The MMA gives all deck mount antennas the ability to go from a vehicle, vessel or marine mount antenna to a fixed position tower/pole or structure mounted antenna.

Mounting hardware, coaxial feeder cables and other installation accessories are all available separately.

	MMA	MMA-1200	MMA-SS
Construction	Corrosion resistant anodised aluminium		304 stainless steel
Dimensions	250mm x 25mm	1200mm x 25mm	250mm x 25mm
Thread - one end	1"-14 UNS		
Mounting hardware order separate	Parallel: 2 x EB1-SS or 1 x UB3-SS Right-angle: 2 x RB8 or 1 x UB2-SS		
Mounting position recommended	Mount the antenna and MMA as high on your vessel/structure or tower as possible to ensure no obstructions.
