

Struts kits

For Yagi support Page 1 of 3

When planning the installation of a large Yagi antenna, the need for a strut kit to properly support the boom long term is a vital consideration. The main factors which determine the need for a Yagi strut kit are:

- Antenna boom length, weight and wall thickness
- Wind loading and side-to-side flutter of the boom (mostly alpine coastal regions)
- Weather conditions at the site, especially if snow is likely during the winter months
- Birds perching on the antenna boom

All of the large Yagi models Y100, Y200 and Y300 will most definately require a support strut kit due to their size and weight. 15 Elements Yagi models such as the Y415, Y615TV and Y815 series should also be considered for a support strut kit, particularly the stainless steel models

YS1-23 tension strut

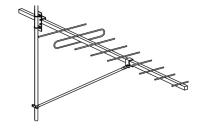

or

YS2-48 tension & spacing strut

Strut type

Single strut kit	Suitable for situations requiring extra support for the length and weight of a Yagi boom.
Insulated strut kit	Suitable for situations where the Yagi must be insulated from the mounting structure whilst being supported
2-way strut kit	Suitable for situations where extra stability against side-to-side wind flutter is required, this strut kit includes an aluminium support boom. In either tension or compression configurations.
Compression strut kit	Suitable for situations where sufficient mast space above the antenna is not available, this strut kit supports the Yagi boom from beneath.

YS1 compression struts

Strut terminology

Tension	Designed for mounting above antenna	
Spacing	Designed for spacing/holding between antennas	
Compression	Designed for mounting below the antenna	

YS2-C28

YS2-23C

YS2 2-way tension strut

More information and order code on the following page...

Struts

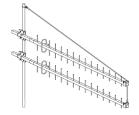

For Yagi support Page 2 of 3

Order code	Suitable Yagi's	Strut type	Strut clamps incl.	Antenna to tower clamp incl.
YS1-100	Y100 series	Single tension	Yes	
YS1-100H	Y100 Series	Heavy-duty single tension	Yes - SB-50-1	
YS1-23	Y200/Y300 series	Single tension	Yes	
YS1-23H	Y200/Y300 series	Heavy-duty single tension	Yes - SB-40-1	
YS1-48	Y415/Y615TV/Y815/Y815-20RL series	Start to the	Yes	No - order separately to suit requirements
YS1-48-CP	Y4/Y6/Y8 cross pol.	Single tension	Yes	requirements
YS1-48/SP1	Custom struts for 2-stack arrays	1 x tension strut 1 x spacing strut	Yes	
YS1-48-SP3	Custom struts for 4-stack arrays	1 x tension strut 3 x spacing struts	Yes	

YS1-23 tension strut

YS1-48/SP1 tension strut

Order code	Suitable Yagi's	Strut type	Strut clamp incl.	Antenna to tower clamp incl.
YS1-INSUL	Custom insulated strut	Single insulated tension	No - order separate	No - order separately to suit requirements

YS2-C48-2

Struts kits

For Yagi support Page 3 of 3

Order code	Suitable Yagi's	Strut type	Boom & strut clamps incl.	Antenna to tower clamp incl.
YS2-100	Y100 series	2-way tension	Yes - spread support boom + strut-to-Yagi and strut-to-tower	No order separately to suit requirements
YS2-23	Y200/Y300 series			
YS2-23-SS	Y200SS/Y300SS series			
YS2-48	Y415/Y615TV/Y815/Y815-20RL series			
YS2-48-SP1	Y415/Y615TV/Y815/Y815-20RL arrays	2 x tension struts 1 x spacing bar		

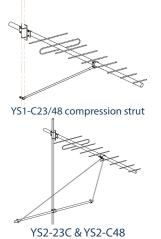

YS2-23 2-way tension strut

Order code	Suitable Yagi's	Strut type	Strut clamp incl.	Antenna to tower clamp incl.
YS1-C23	Y200/Y300 series	Single compression		
YS1-C48	Y4/ Y6/ Y8/ Y8 series	Single compression		
YS2-C28	Y200/Y300 series	2-way compression - front and back	Van	
YS2-23C	Y200/Y300 series	2-way compression - front only	Yes For strut-to-Yagi &	No order separately to suit requirements
YS2-23C-SS	Y200SS/Y300SS series	2-way compression - front only	strut-to-tower	
YS2-C48	Y4/Y6/Y8 series	2-way compression - front only		
]	

2-way compression - front and back

YS2-C28 YS2-C48-2

Y4/Y6/Y8 series

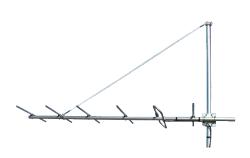

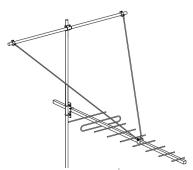

Struts kits

For Yagi support Page 3 of 3

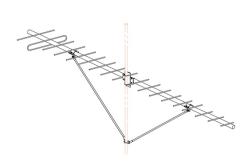

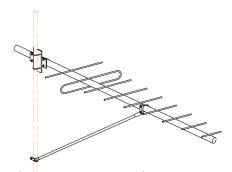

Order code	Strut type	Length	Lug orientation	Mounting included
SF1.5		1.5m		No - order separate UV1-SS and/or - SB-40-1 (Y2/3) - SB-50-1 (Y1) - YB-25 (Y4/8)
SF2.5		2.5m	no offset - aligned	
SF4.5*	Tension - mount from above	4.5m		
SRF1.5	Tension - mount from above	1.5m		
SRF2.0		2.5m	90° lug offset	
SRF4.5*		4.5m		

 $[\]ensuremath{^*}\xspace$ SF4.5 and SRF4.5 are of 2-piece construction for reduced courier cost

Order code	Strut type	Length	Lug orientation	Mounting included
SFC1.6	1 x compression	1.6m	90° offset -	No - order separate UV1-SS and/or - SB-40-1 (Y2/3) - SB-50-1 (Y1)
SRF2.0C		2.0m		
SRFC1.6		1.6m		
SRFC1.8		1.8m		- YB-25 (Y4/8)
